

GETTING STARTED

1.0 UPLOADING THEME TO HOSTING

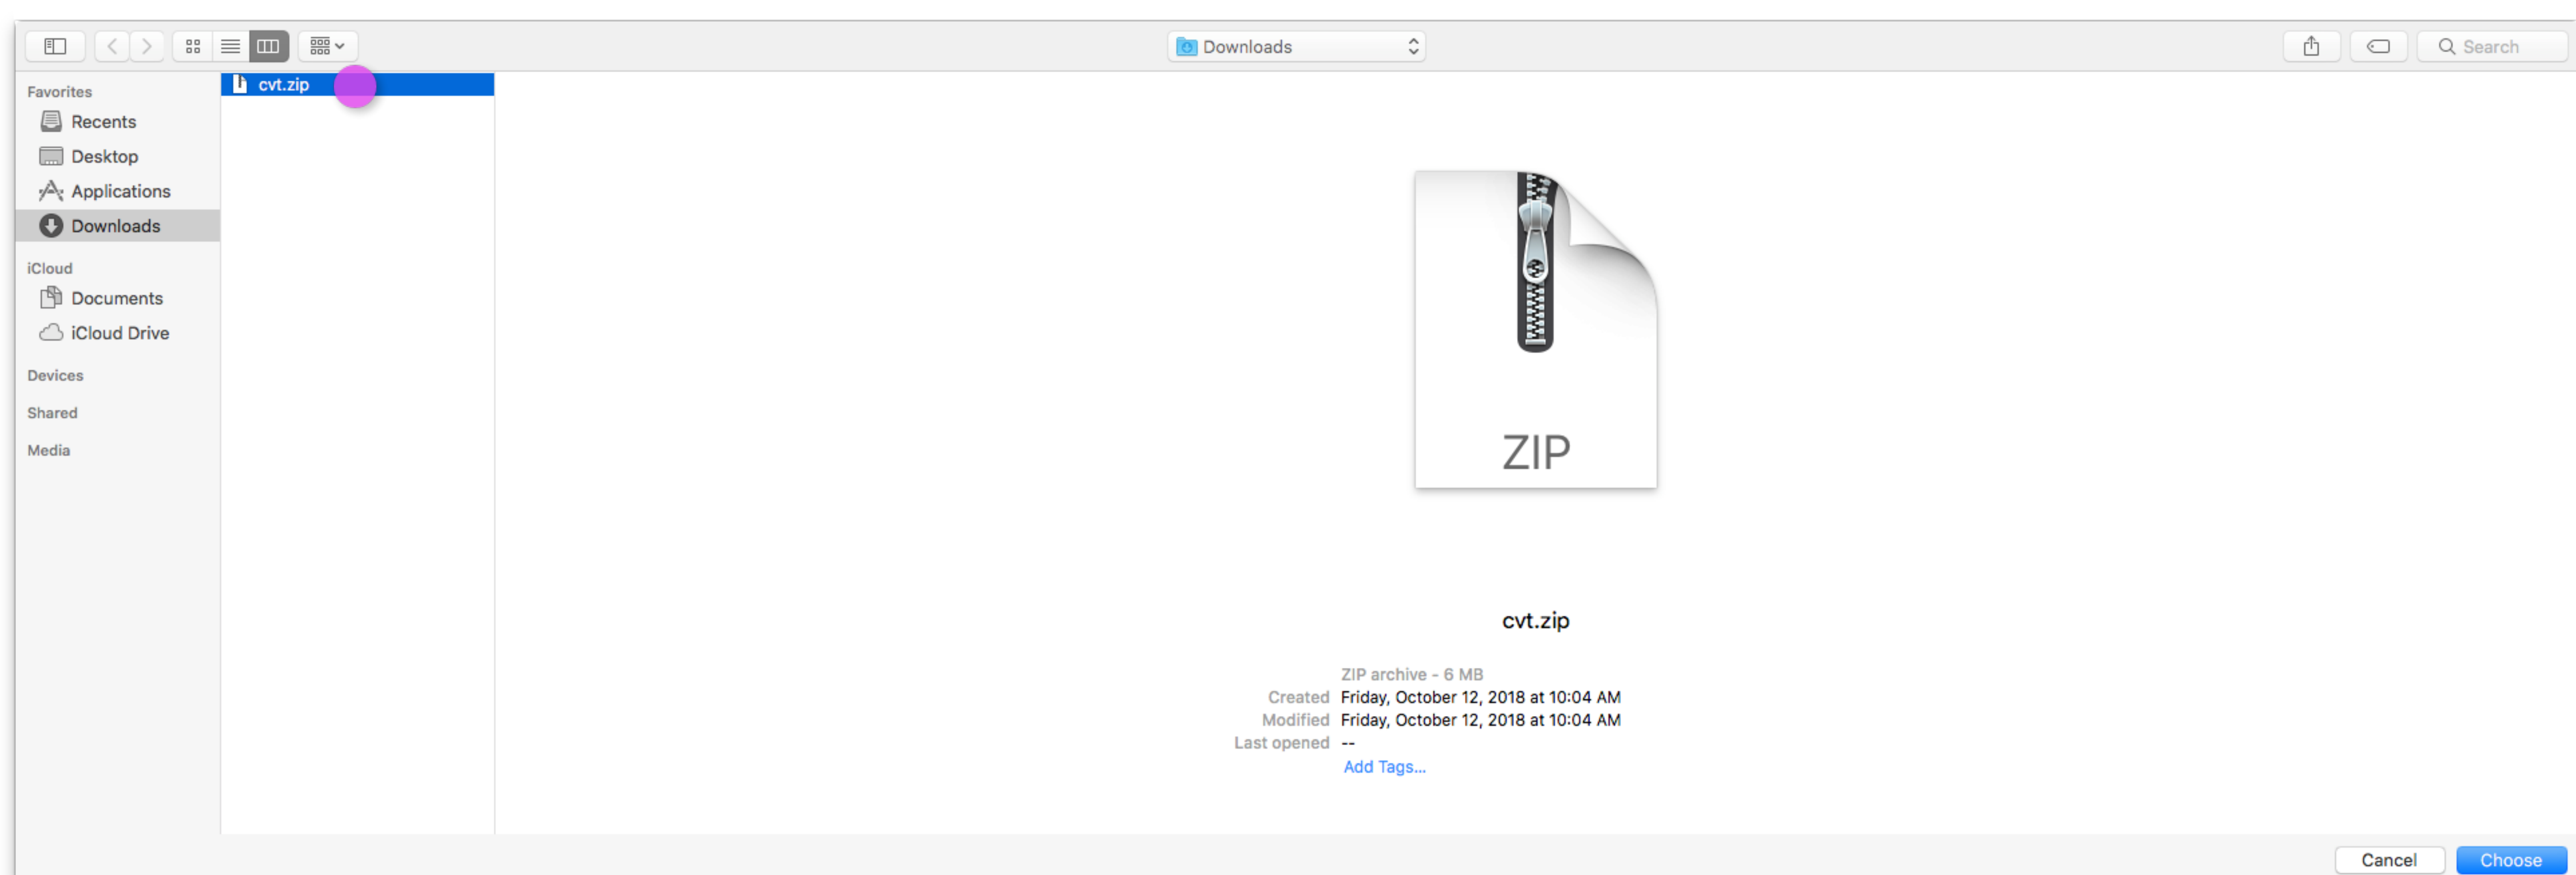

PAGE 1

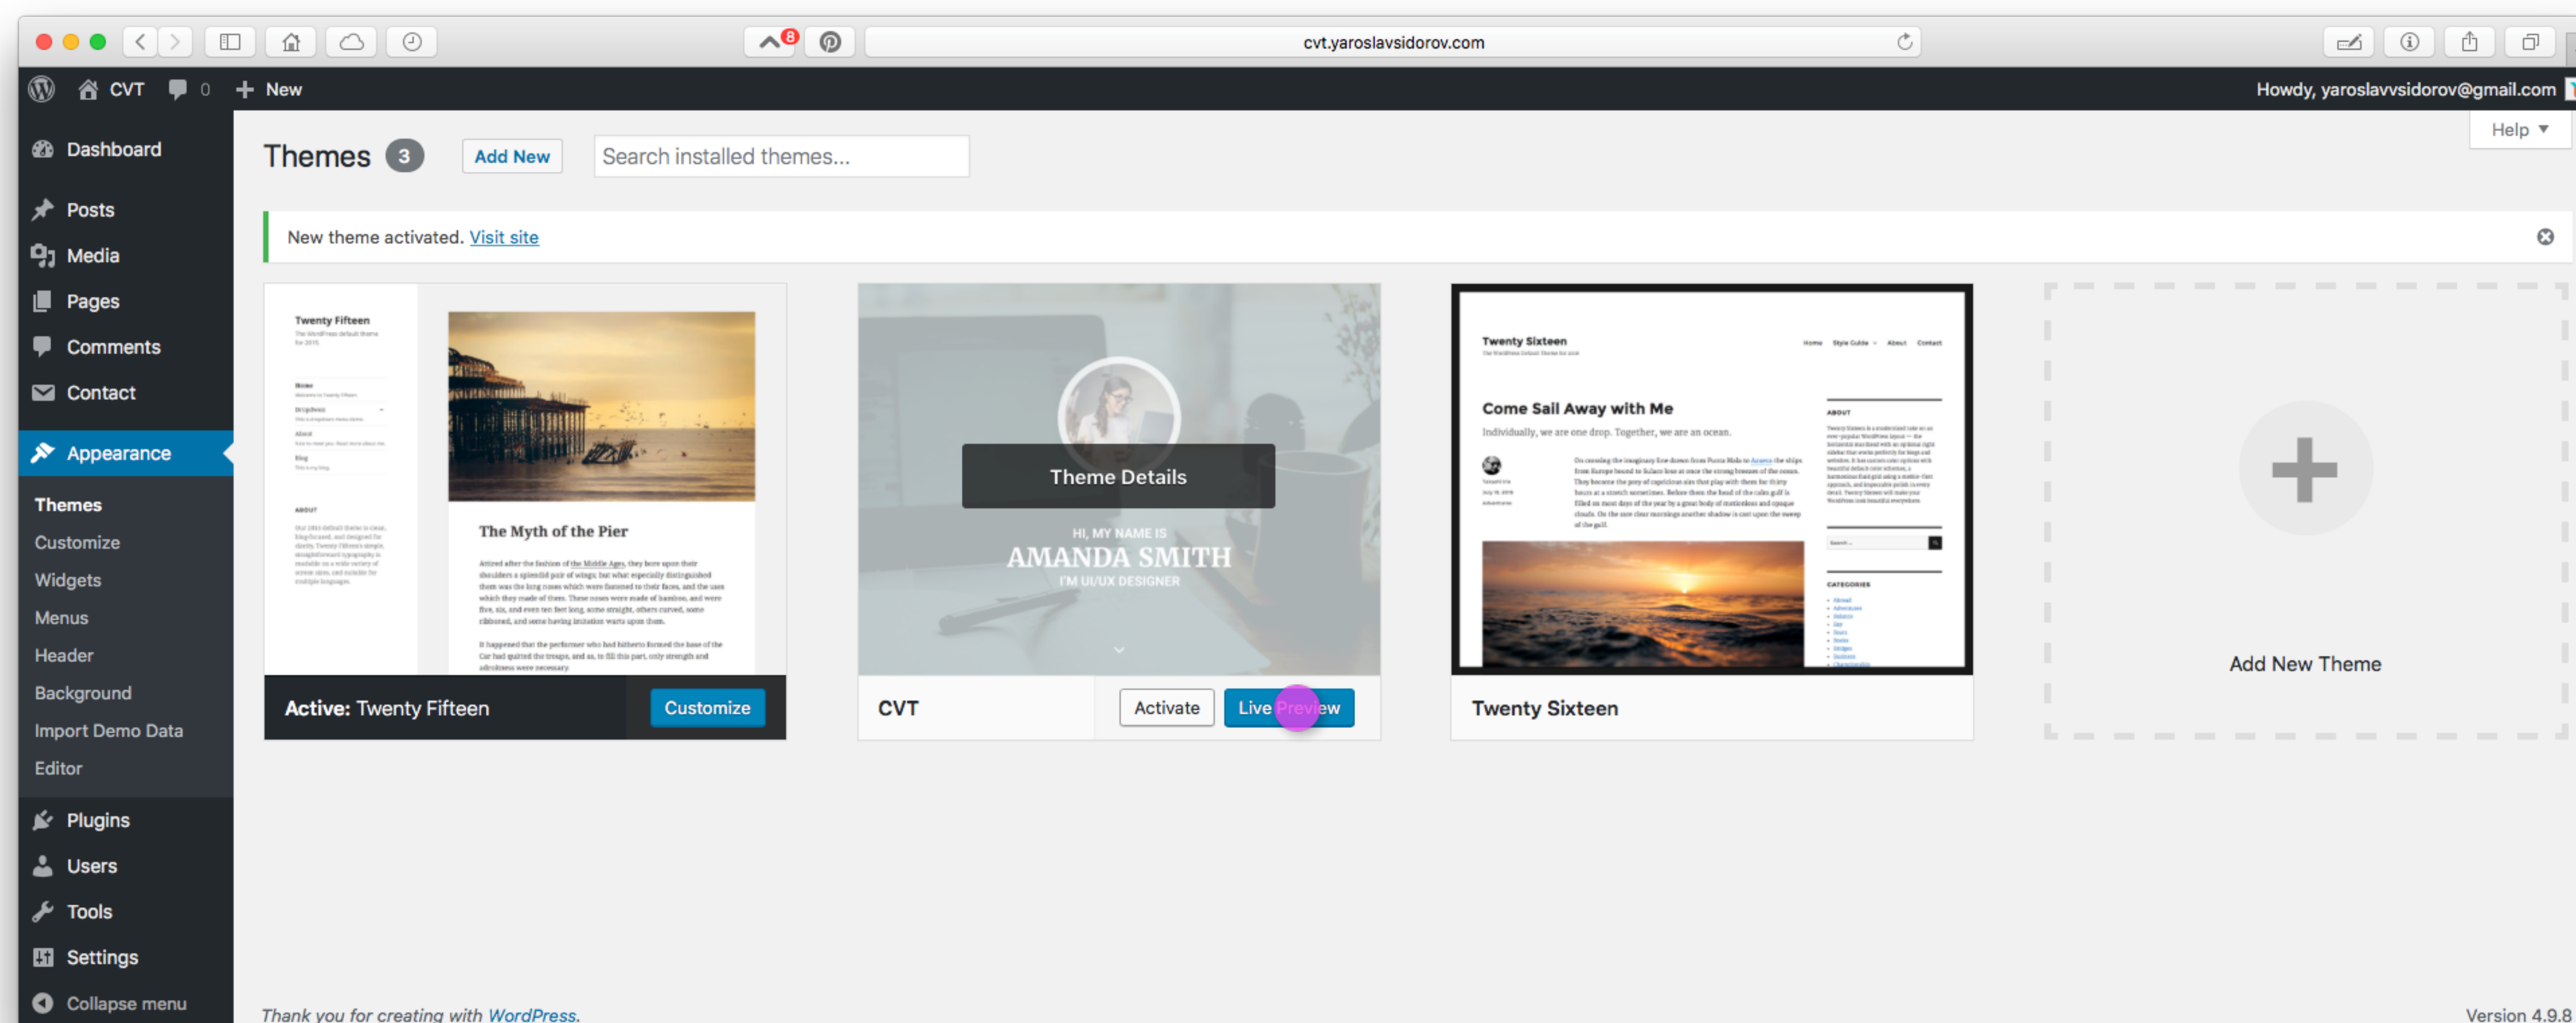

1.1 Login to your WordPress Admin Area. Go to **Appearance/Themes** and click **Add New**.

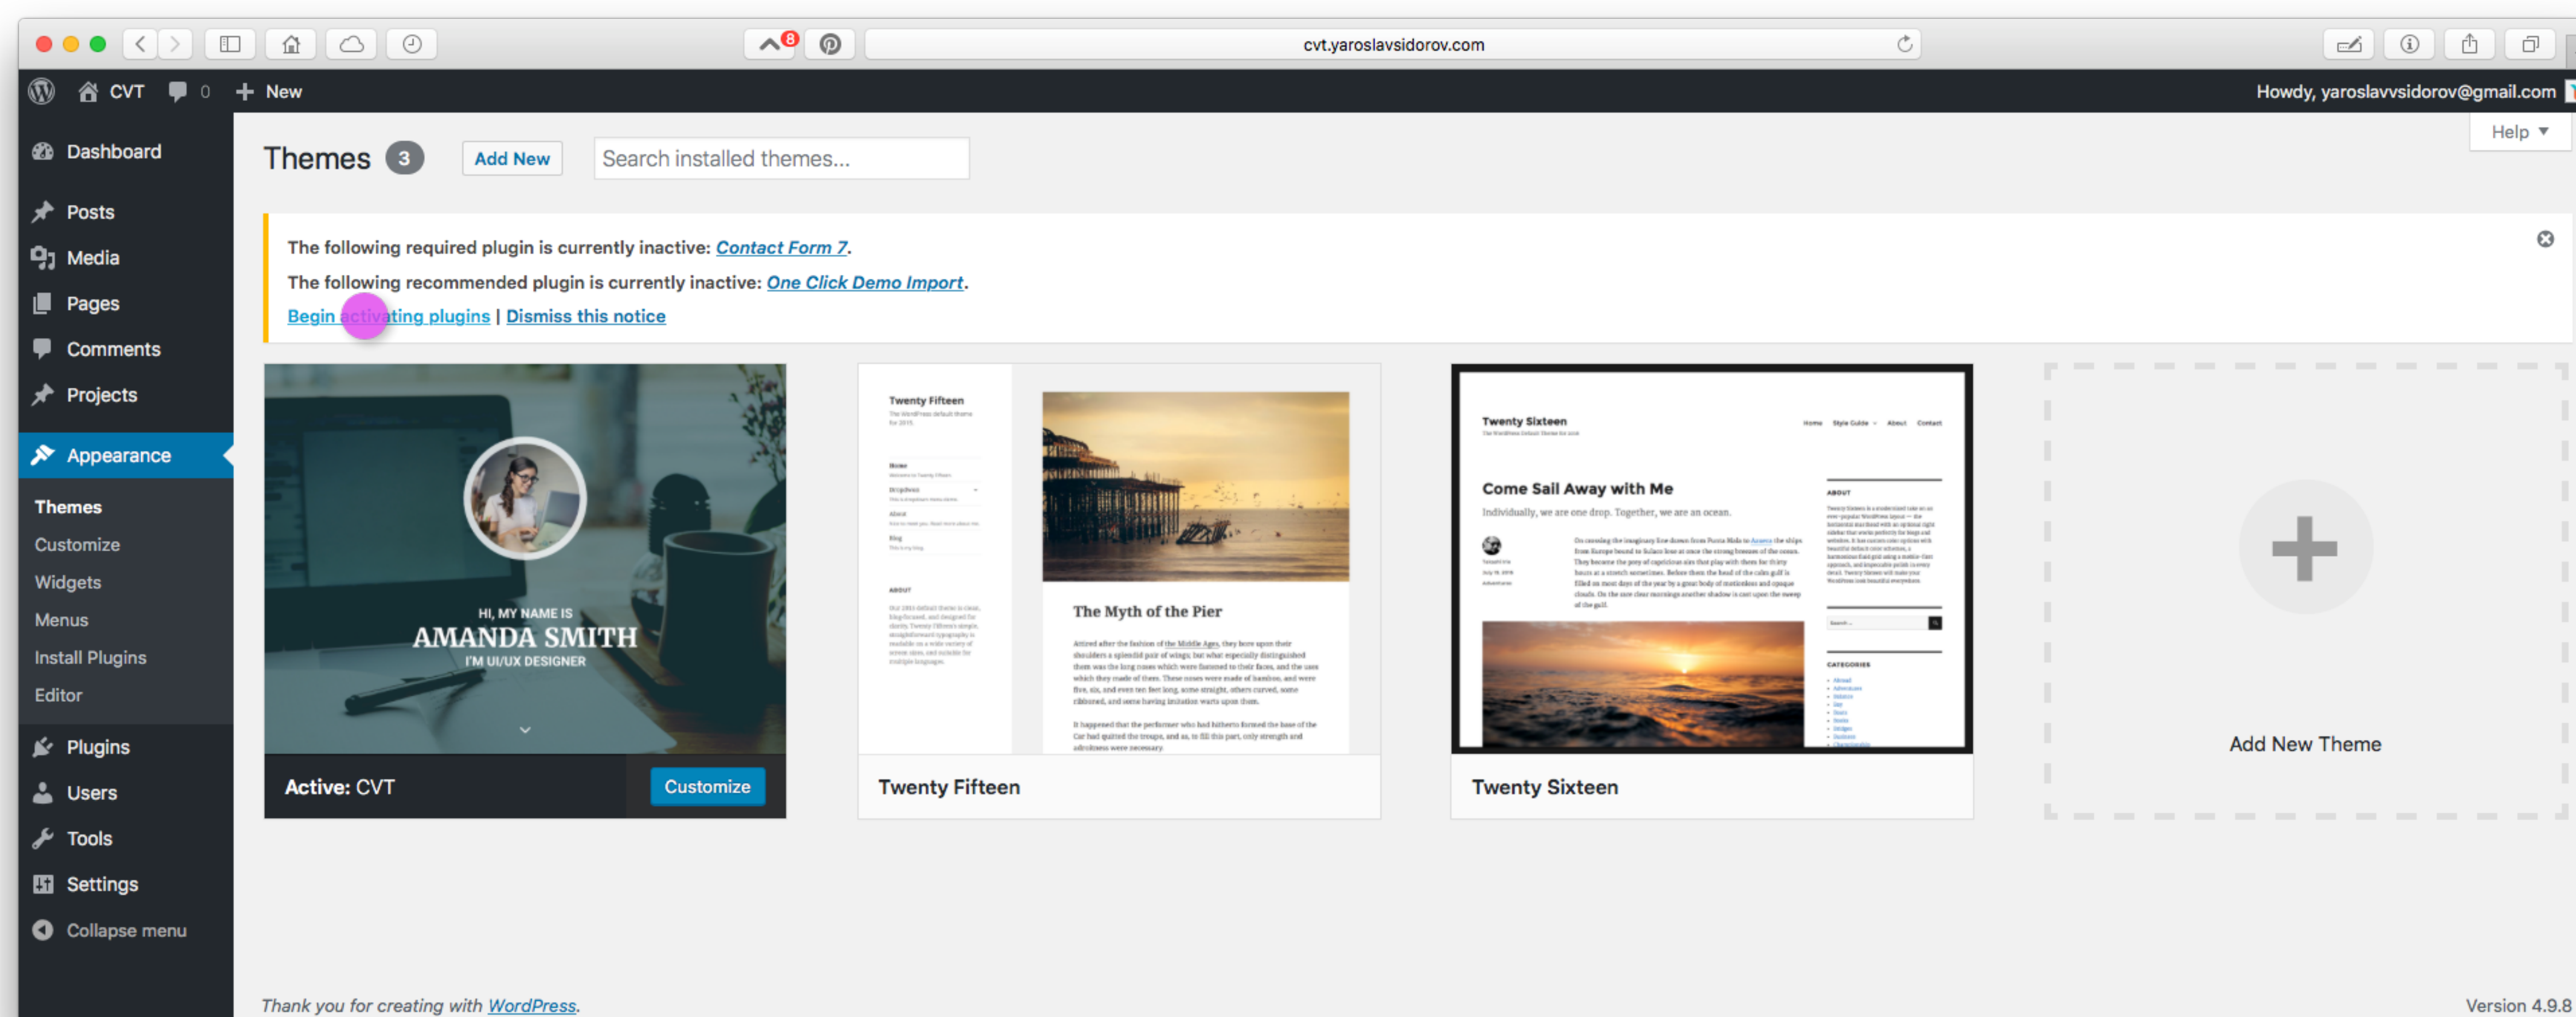

1.2 Click **Choose File** in order to upload **CVT** theme.

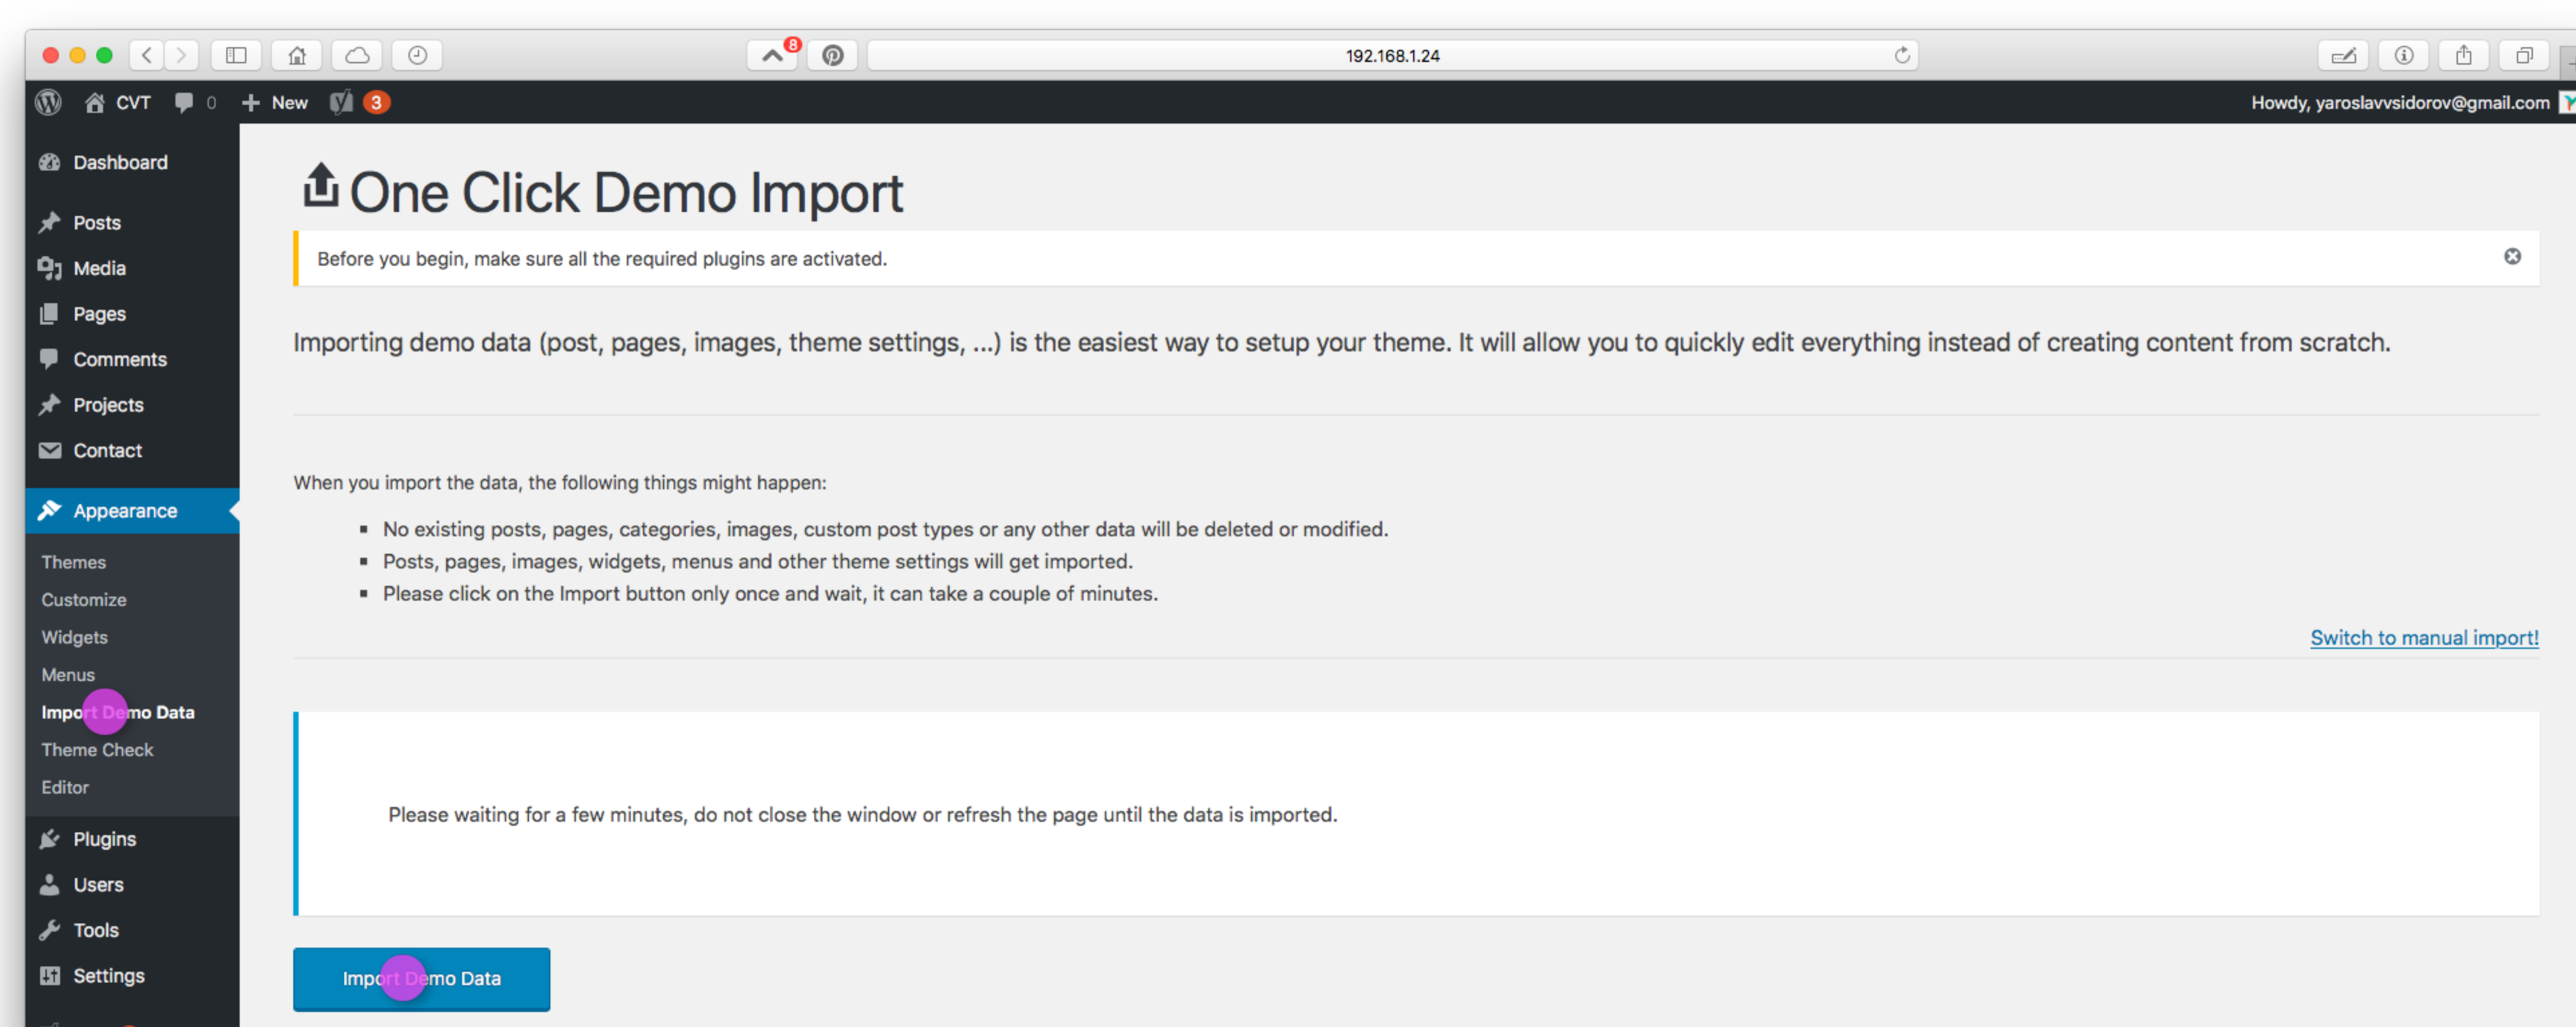

1.3 Navigate to the folder where you downloaded **cvt.zip** file from **Etsy**, select it and click **Choose**.

2.1 Activate the theme from Appearance/Themes panel.

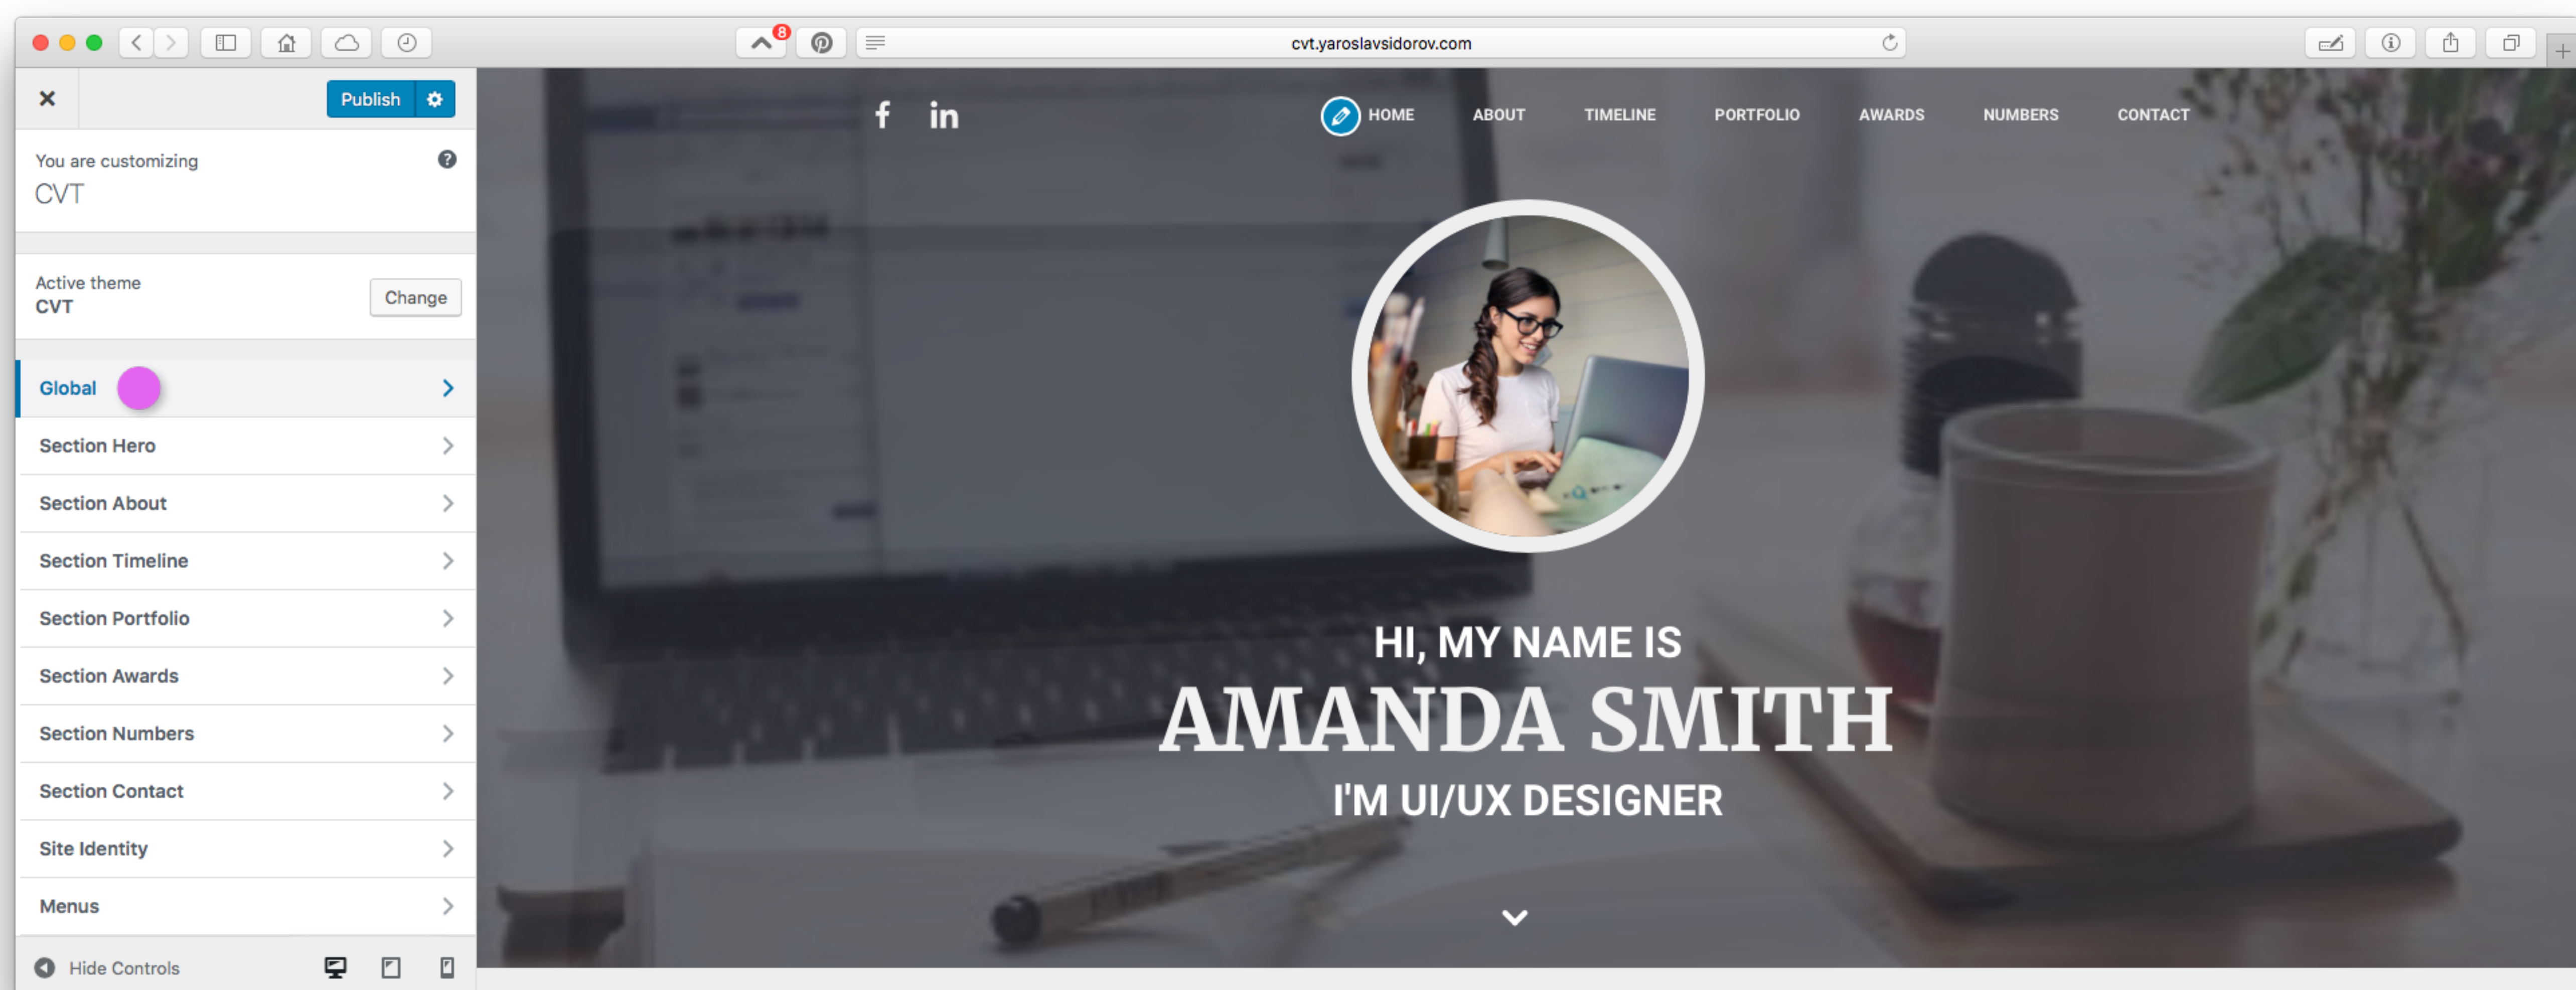

2.2 Click on Begin activating plugins to activate all required plugins.

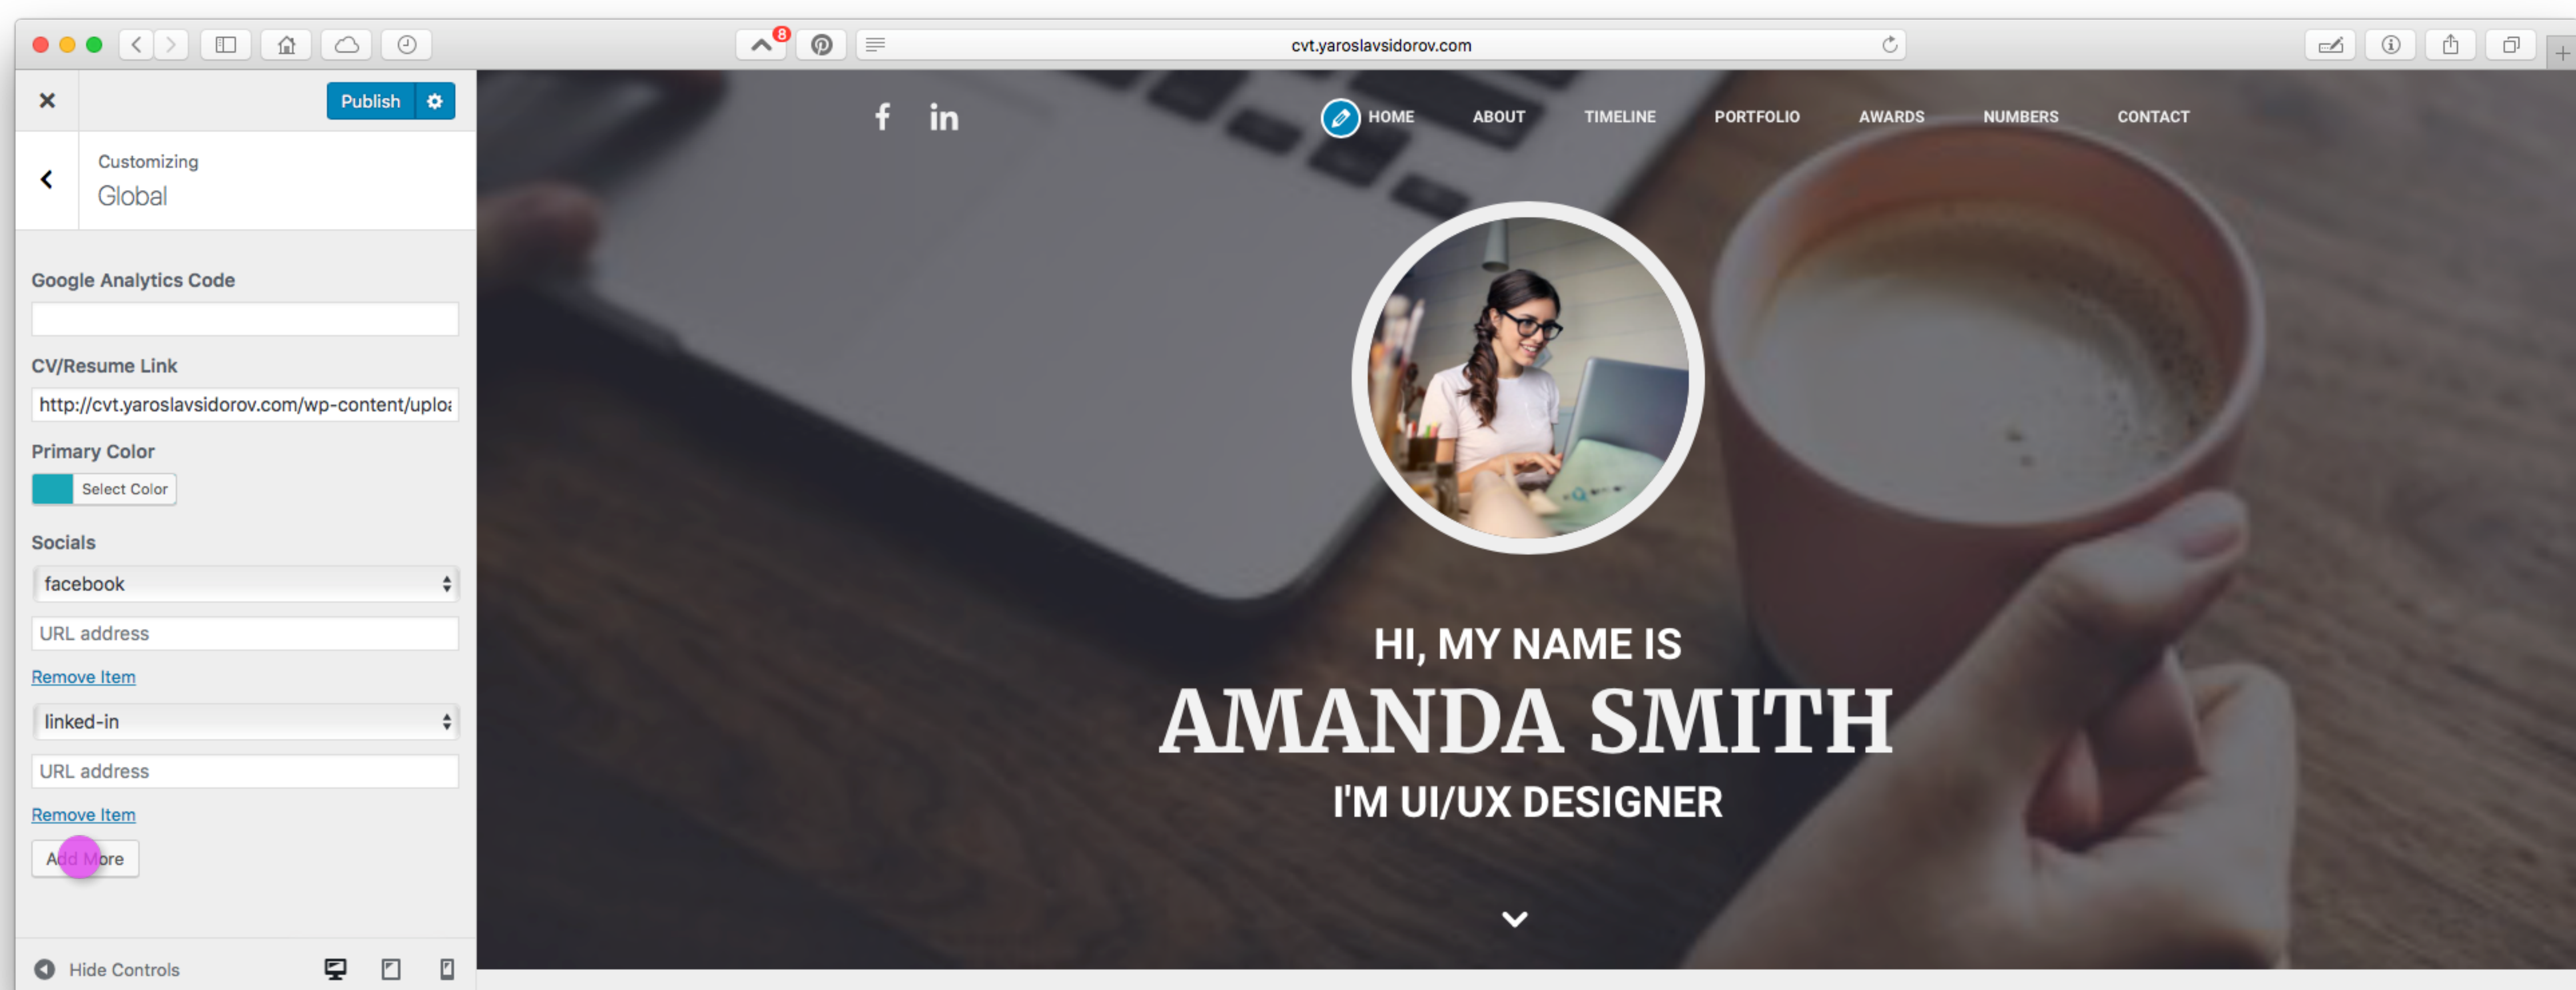

2.3 After all required plugins have been activated, go to Appearance/Import Demo Data and click Import Demo Data. After all demo data has successfully imported go to Appearance/Customize to start customizing.

IMPORTANT: In case any problems with import follow this link.

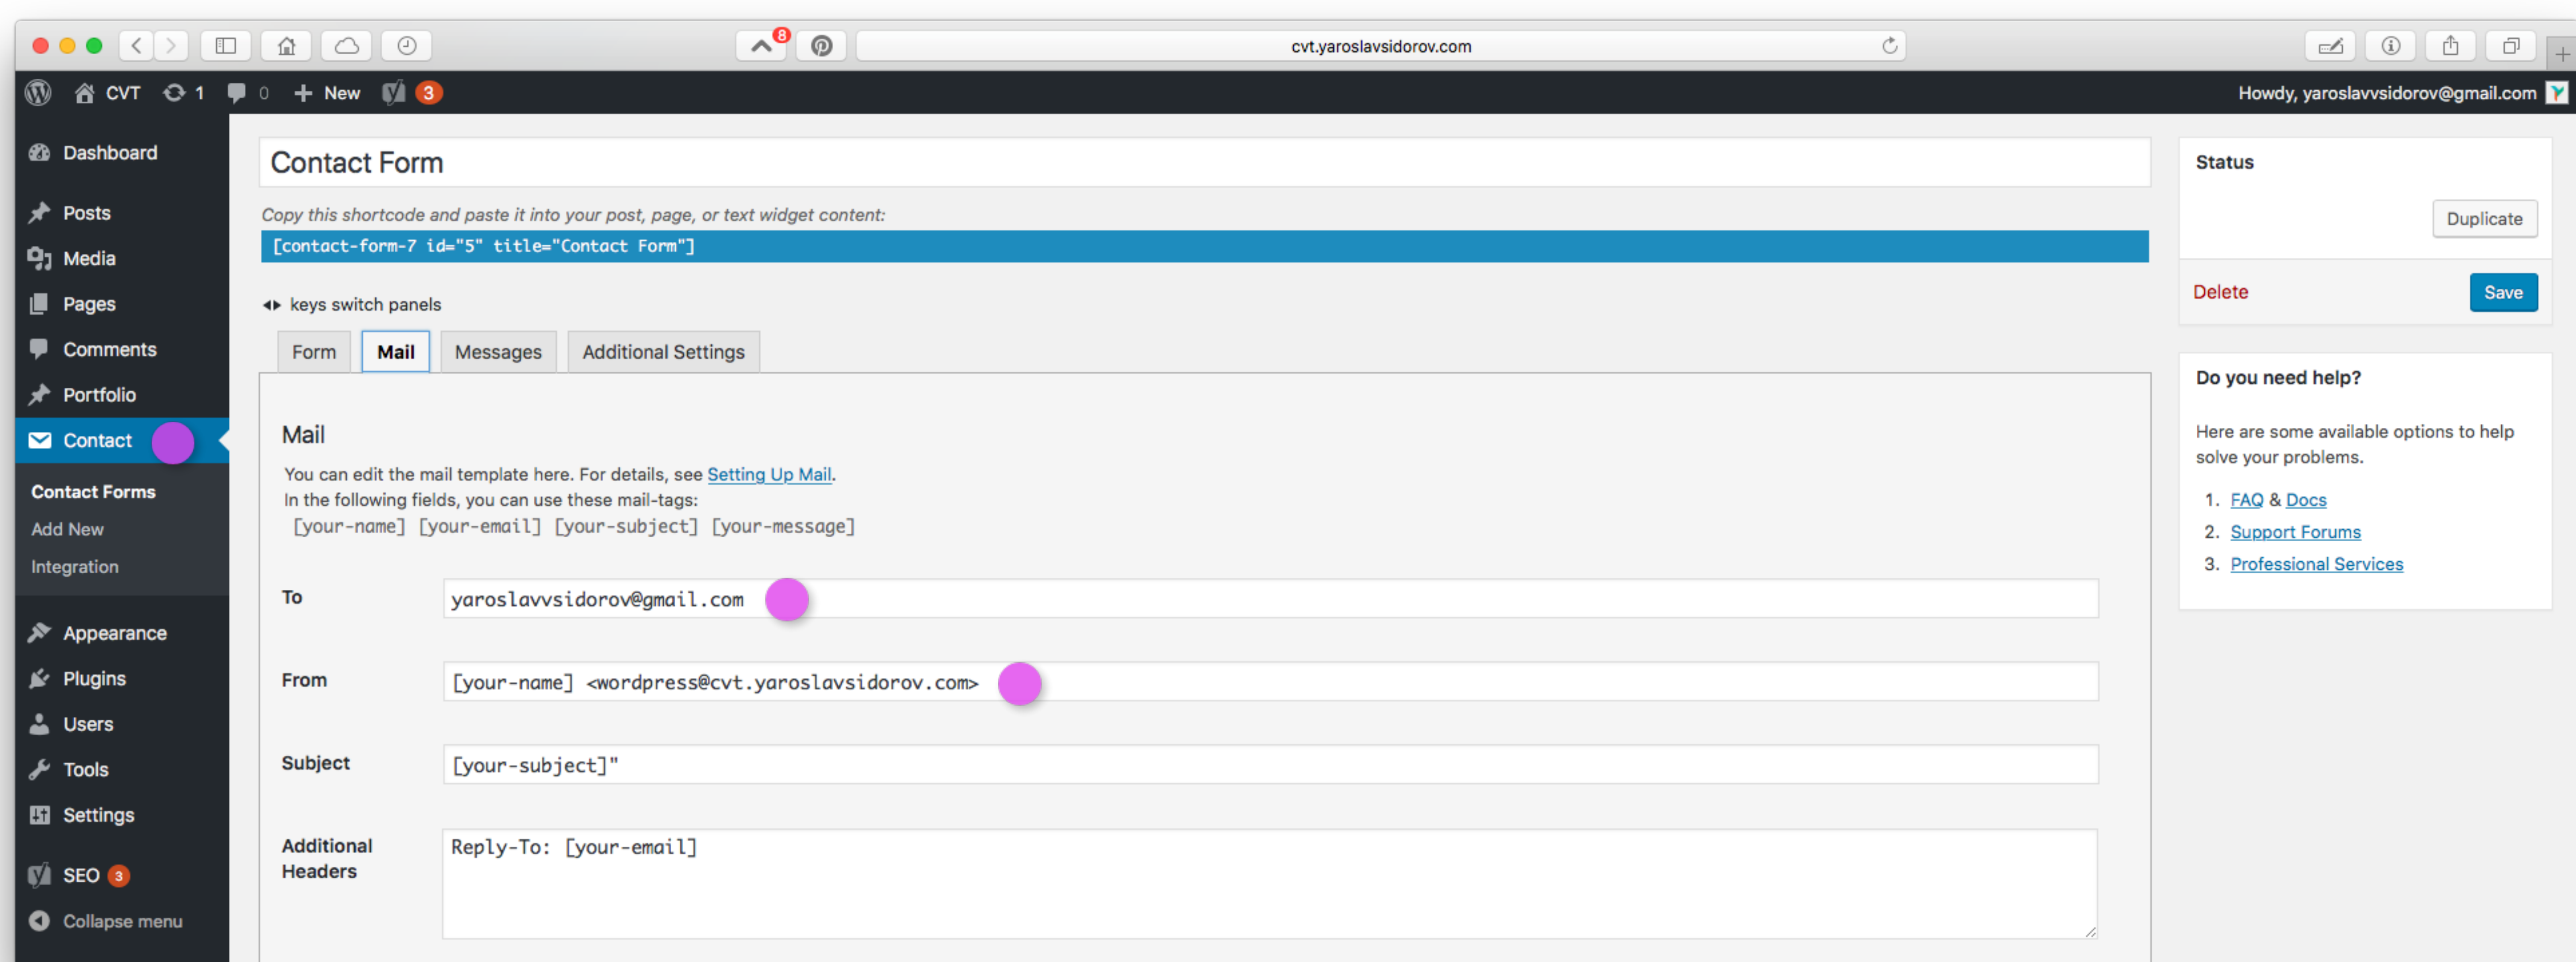

<https://github.com/proteusthemes/one-click-demo-import/blob/master/docs/import-problems.md>

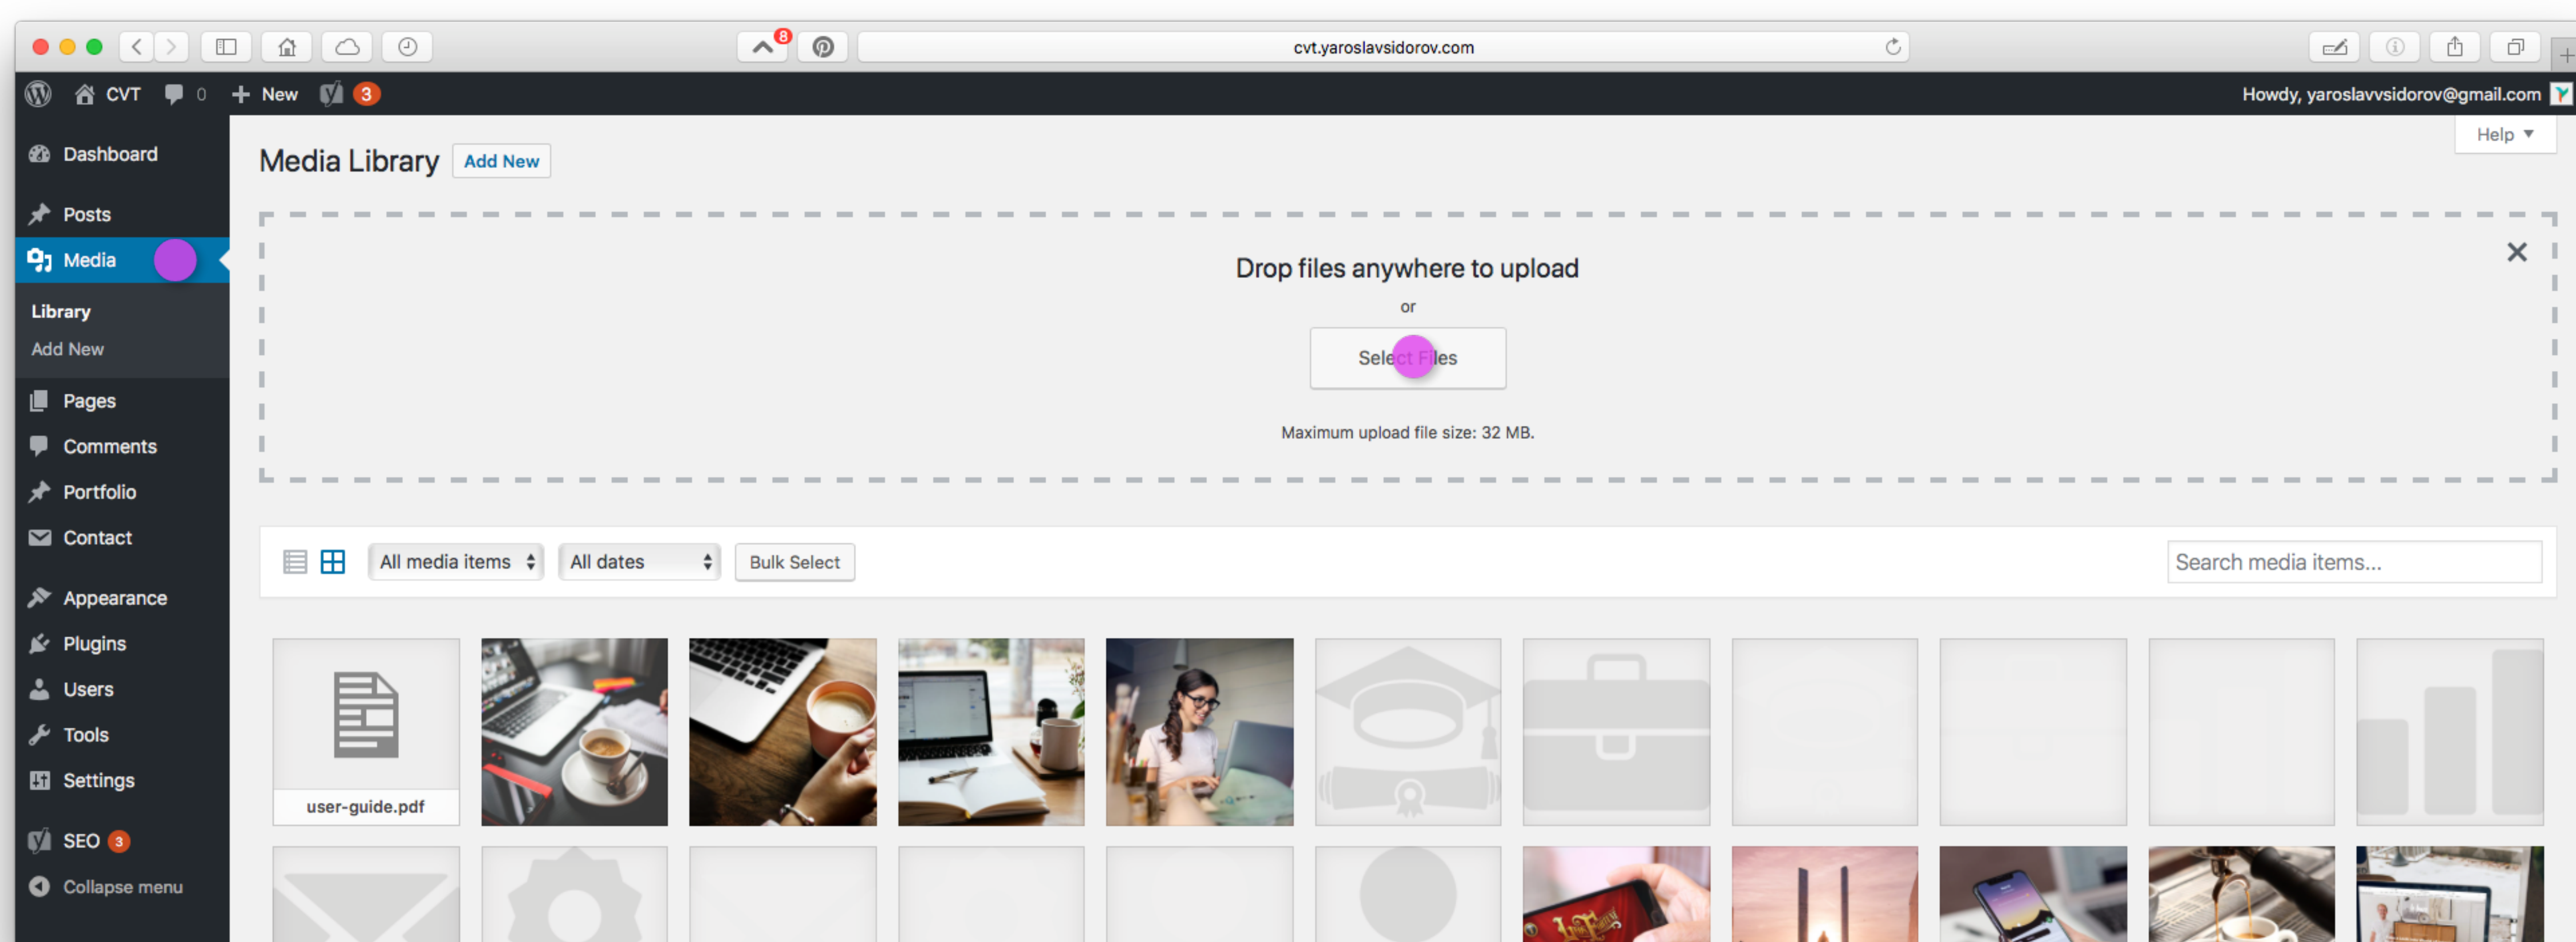

3.1 Start **customizing** by going to each tab to **edit** and **add** your personal information.

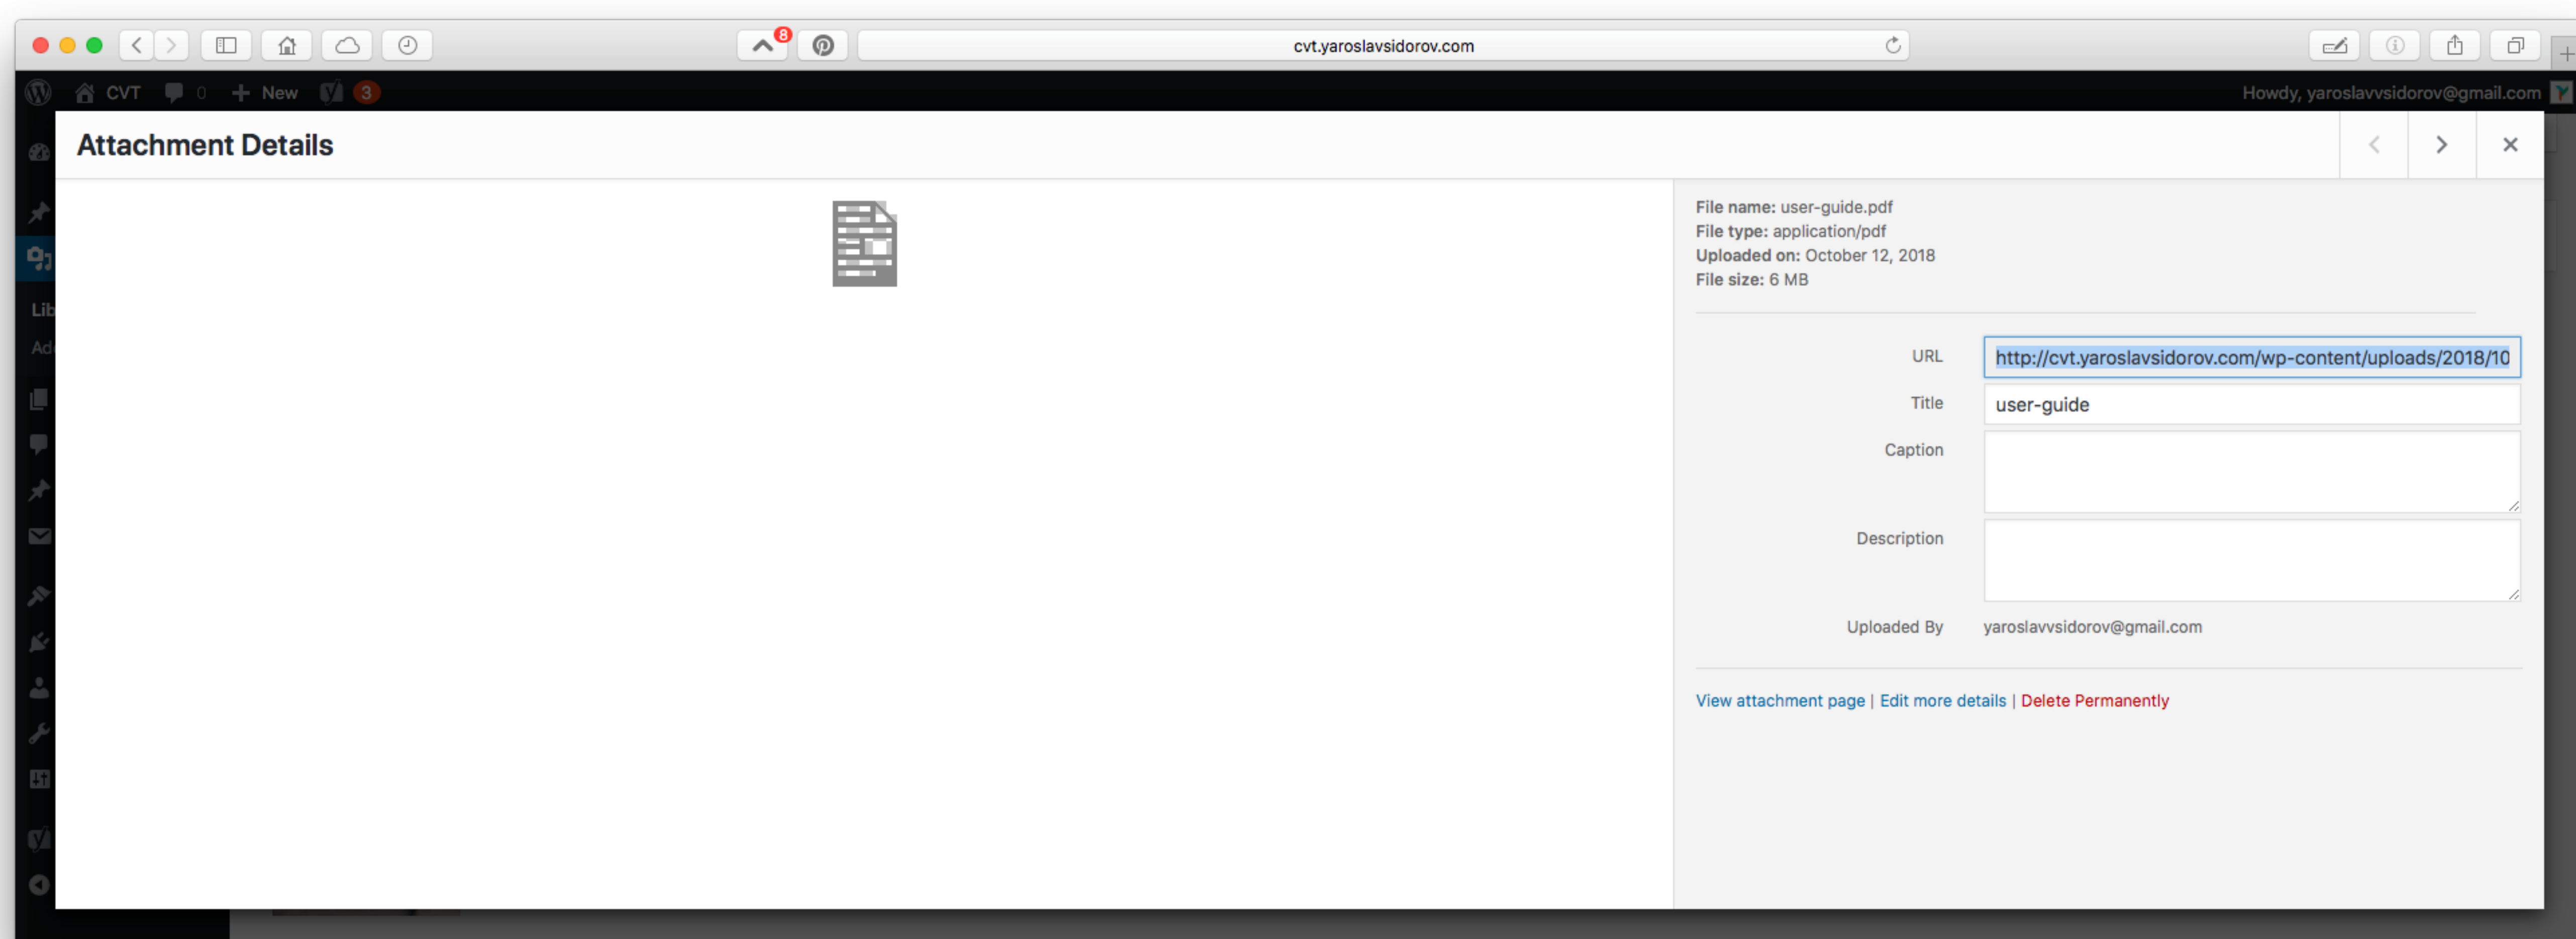

3.2 Click **Add More** if you need additional repeatable item like social network input fields.

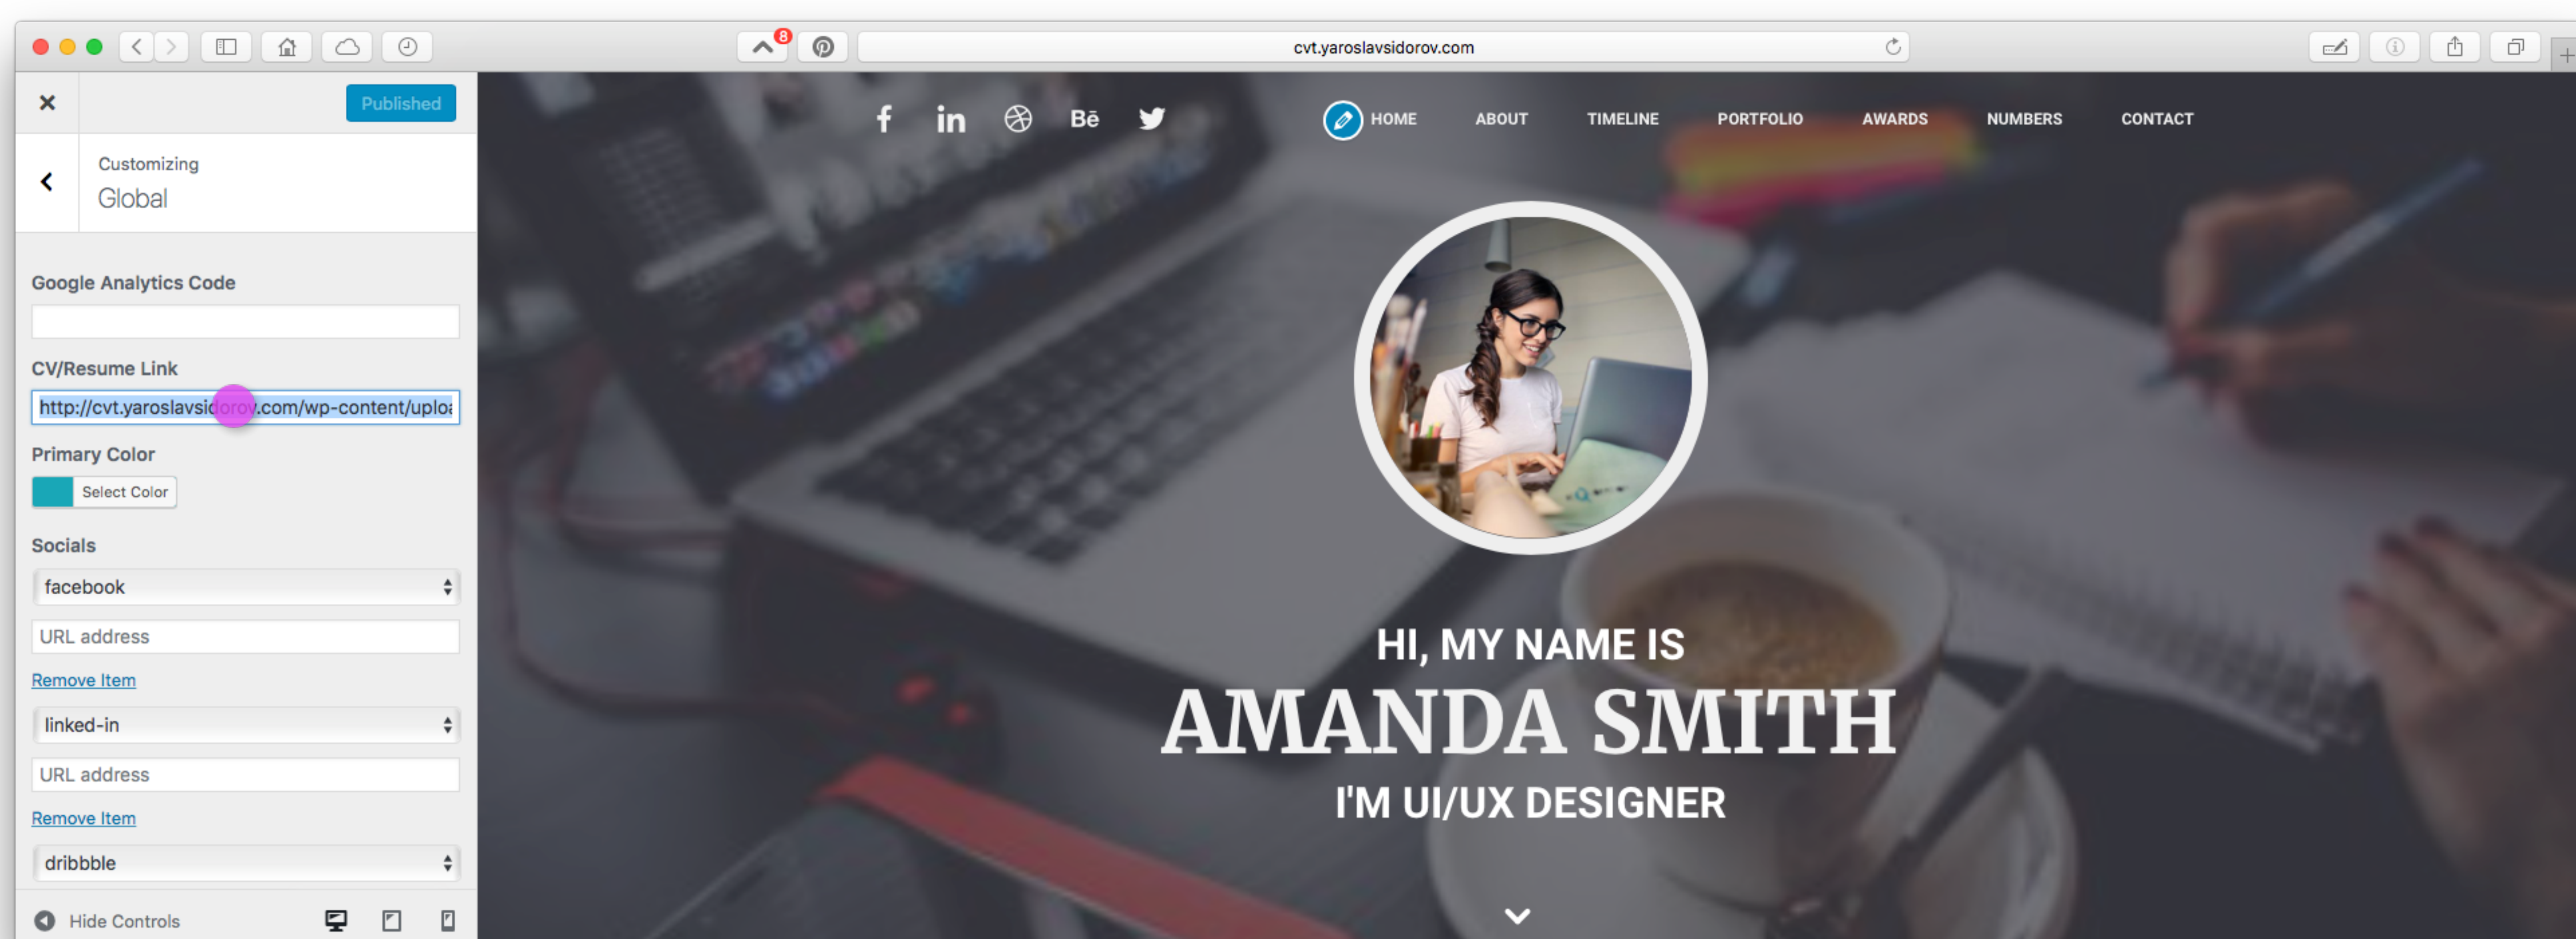

3.3 Go to **Admin Area/Contact** tab to check your **email address** and **domain name** are correct.

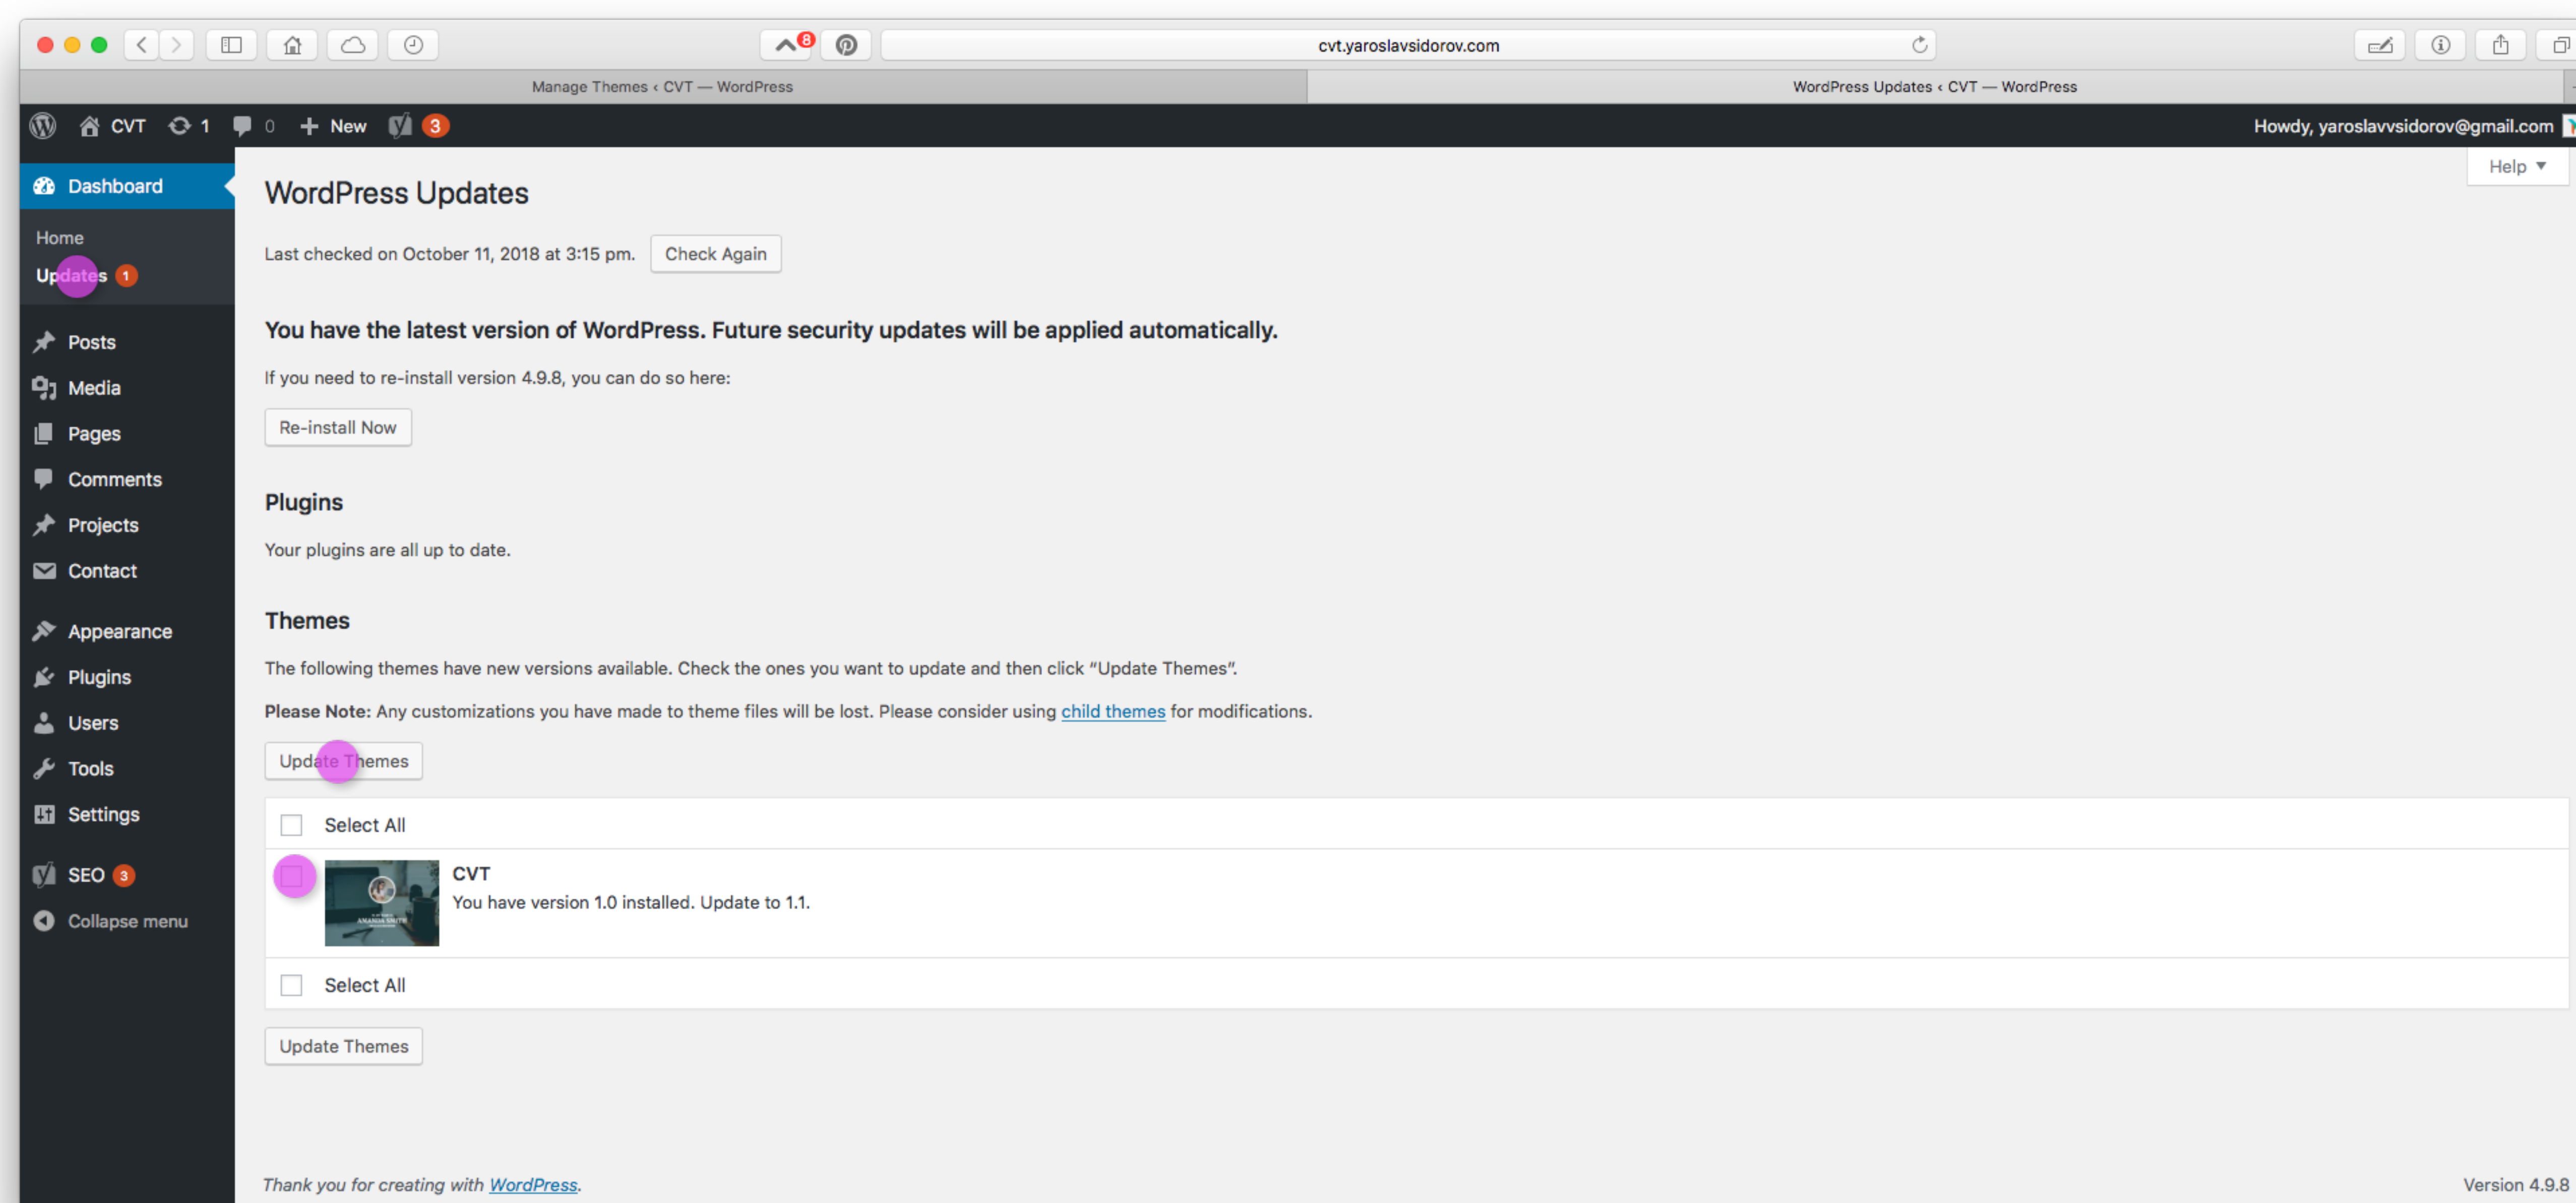

4.1 Go to **Media Library** to upload your **PDF Resume**.

4.2 Click on your **CV/Resume PDF file** you just uploaded and copy **URL address**.

4.3 Open **Customizer/Global tab** and paste the **URL link** in **CV/Resume Link** input field.

5.1 Keep CVT theme and plugins up to date. You can find **WordPress Updates** panel in the **Dashboard/Updates**.

Congratulations!

You are done with basic CVT theme setup.
